L.A.U.E

THE FIFTH EDITION NATIONAL WEBINAR "GIS DAY ALGERIA" ANNABA NOVEMBER 20, 2024

In partnership with :

Seminar presentation

After the four previous editions organized in 2020, 2021, 2022 and 2023. The Laboratoire of Urban and Environmental Analysis at Badji Mokhtar University - Annaba will organize the 5th edition of GIS Day, as part of the World GIS Day. This Day is an educational event created and promoted by Esri, which allows the users and providers of Geographic Information Systems (GIS) to open their doors to universities, companies and the general public to present their real-world GIS applications.

The International GIS Day has since become a global event. Organizations around the world that use GIS, or are interested by it, participate in organizing or supporting this event. In 2005, over 700 GIS Day events took place in 74 countries around the world. The first GIS Day was held in 1999.

International GIS Day is celebrated on the third Wednesday of November each year, during Geography Week, a geographic literacy initiative sponsored by the National Geographic Society. This day represents an opportunity to take part in the international celebration of GIS technology, which offers a scientific framework for the collection, analysis and visualization of geographic data to help us make better decisions.

This meeting will focus on four main themes, grouping together a number of research topics. mainly on the contribution of GIS to supporting the various needs of human beings in their environment, particularly in the planning and management of territories and services, with a particular emphasis on the way in which geographic information systems can support good governance, moving increasingly towards e-governance, with the general aim of developing decision-support tools.

The quality and integrity of information concerning the territory are fundamental issues. City planners have to make crucial decisions, and to ensure that these decisions have a positive impact, and to minimize potential risks, particularly as we have recently seen a number of disasters: earthquakes and major floods in several countries around the world. While Algeria is not excluded from this type of risk, we need to be able to guarantee the integrity and accuracy of the data on which decisions are based,

Geographical data concerning the territory can be manipulated using GIS applications. It can also make a major contribution to the management of natural resources and forestry, particularly in the prevention of forest fires, which destroy hectares of our country's forests every summer. GIS applications can help to protect biodiversity and environment, and to prevent certain risks.

In addition, following Ministerial Decree No. 1257, which encourages Master's students to create start-ups based on innovative ideas as part of their final degree projects, we have devoted the last axis to geographers who want to present their start-up ideas using GIS tools and artificial intelligence applications.

Axis of the seminar

Axis 1: GIS at the service of human beings and their living environment: planning, territorial governance, sustainable development, spatial analysis, transport and mobility, economic activities (agriculture, industry, commerce, tourism, etc.), health, facilities, architecture and heritage, etc.

Axis 2: GIS and Risks: natural risks, technological risks, protection, prediction, control, crisis management, treatment and evaluation... etc.

Axis 3: GIS, Environment and Natural Resources: quantification, management, protection, valorization, exploitation: of ecosystems, forests, water resources, mining resources...etc., fires, pollution, climate change...etc.

Axis 4: GIS, Innovative Ideas, Start-ups, Geoportals, Mobile Applications and Artificial Intelligence (AI).

Pr MANAA Mohamed Rector of Badji Mokhtar-Annaba University	
Honorary Chairman	Pr Abdaziz LARABA Dean of the Faculty of Earth Sciences. UBMA-Algeria
Chairman of the seminar	Dr Rabah ZENNIR Planning Department - Faculty of Earth Sciences-UBMA -UBMA
Organization Committee	
Dr ZENNIR Rabah (chairman)	Mr BOULCHAFAR Hamza
	Mme NOUI Nassira
Dr KHOUAS Mekhlouf Adel (general coordinator of the seminar)	Mr TOURGHI Hani
Mr DERRADJI Saif Eddine (technical coordinator)	Mr ATTOUI Hossendine
Dr Naili Manel (partnership coordinator)	Mme KEBLOUTI Sara
Mr ACHOURI Amine (President of ANGAT - partnership coordinator)	Dr KIHAL Amel
Dr KHELLAF Boubaker	Mme TOUAIBIA Naouel
Mme YEDDIOU Marwa	Mme BOUNEFLA Ines
Mr ARDJOUNE Badar Eddine	Mr KESMIA Djamel Eddine
Mme SEHAB Habiba	Mme CHABBI Karima
Mr TAHMI Saddek	Mme Nouahed BOURAHLA

Scientific Committee:

Scientific Direction Committee	
Pr Djamel TELAIDJIA	University of Annaba /Algeria
Dr ZENNIR Rabah	University of Annaba /Algeria
Dr Ahmed Soufiane SID	University of Annaba /Algeria

Pr Saddek GUERFIA	University of Annaba /Algeria
Pr Djamel Eddine GUESSOUM	University of Annaba /Algeria
Pr Abdelhak ACIDI	University of Annaba /Algeria
Pr Saida BENMAMER	The national polytechnic school El Harrache/ Algeria
Pr Fouaead BENGHDOBANE	University of Oum El Bouaghi / Algeria
Pr Ahmed BOUSMAHA	University of Oum El Bouaghi / Algeria
Pr Omar BENKARA	University of Blida/ Algeria
Pr Rabah KECHICHED	University of Ouargla/ Algeria
Dr Rim Amina SAOULI	University of Annaba /Algeria
Dr Nassima CHIKH	University of Annaba /Algeria
Dr Mohamed Lamine HARKAT	University of Annaba /Algeria
Dr Samia AFFOUNE	University of Annaba /Algeria
Dr Ammar AZZOUZI	University of Chlef /Algeria
Dr Brahim DJBNOUNE	University of Tébessa / Algeria
Dr Hocine BOULMAIZ	University of Tébessa / Algeria
Dr Abderraziq DJAKJAK	University of Oum El Bouaghi / Algeria
Dr Aissa BOULKIBAT	University of Oum El Bouaghi / Algeria
Dr Amina YAHIA	University of Oum El Bouaghi / Algeria
Dr Hana SALAH SALAH	University of Guelma / Algeria
Dr Ouafa BOUMAZA	University of Annaba /Algeria
Dr Salah Eddine TACHI	University of Annaba /Algeria
Dr Hamza BOUGUERA	University of Annaba /Algeria
Dr Lamine SAYAD	University of Annaba /Algeria
Dr Nabil HARRAT	University of Annaba /Algeria
Dr Marwa AISSAOUI	University of Annaba /Algeria
Dr Walid KHELIFI	University of Annaba /Algeria
Dr Mekhlouf Adel KHOUAS	National Tourism School / Algeria
Dr Hayet YAGOUNI	USTHB / Algeria
Dr Karim CHENIKI	USTHB / Algeria

Dr AHMED AKAKBA	University of Batna / Algeria
Dr.Yahyaoui HABIBI	University of Batna / Algeria
Dr Aziz BENHAMROUCHE	University of Constantine 1/Algeria
Dr Assia LIFA	University of Constantine 1/Algeria
Dr Imen DIAF	University of Constantine 1/Algeria
Dr Tarek MEDJADJ	University of M'sila / Algeria
Dr Nabil SLIMANI	University of M'sila / Algeria
Dr Boubkar KHELLAF	University of Sétif / Algeria
Dr SALLAYE Miloud	University of Sétif / Algeria
Dr Samar MENNOUR	University of Constantine 3 / Algeria
Dr. Abdelmalek DEROUICHE	University of Jijel / Algeria
Dr.Abdelmalek LEKOUJ	University of Jijel / Algeria
Dr Amir DUHAIR	University of Jijel / Algeria
Dr Amine BENZERARA	University of Annaba /Algeria
Dr Ali BOULEMAREDJ	University of Annaba /Algeria
Dr Salah CHAOUI	University of Annaba /Algeria
Dr Bilal BELLOULOU	National School of Marine Sciences and Coastal Planning
Dr Hamza MEDJAHED	University of Annaba /Algeria
Dr Tabet TRIRAT	CRE Annaba /Algeria
Dr Aissa BENSLHOUB	CRE Annaba /Algeria
Dr Maya BEN OUM ELDJADJ	University of Oum El Bouaghi / Algeria
Dr Maya BENAÏSSA	University of Oum El Bouaghi / Algeria

Submission terms and conditions :

- ✓ Contributions should be submitted as oral communications through the Google Meet platform.
- ✓ Three languages of communication are accepted: Arabic, English and French.
- ✓ The proposals of communication should be sent using the following link :

Participation fees: Free

<https://forms.gle/7ySW7z7wo2UhfRAe9>

Important dates :

October 01, 2024	Publication of call for papers
October 31, 2024	Deadline for submission of paper proposals (maximum half-page abstract)
November 05, 2024	Sending of acceptance notifications
November 20, 2024	Webinar event
